The auctioneer or Sale Manager assumes no liability for loss or injury to the livestock due to theft, mysterious disappearance, sickness, improper handling or an act of God.

Registrations. All animals selling are registered with the American Simmental Association or the American Chianina Association (except for bulls listed as COM BULL). Registration certificates will be transferred to the new owner. Please be sure to leave complete and accurate transfer instructions with the sale clerk at time of settlement.

Ford Yearling Bull Health Program: The yearling bull health program is under the guidance of Twin Lakes Animal Clinic, Madison, SD and the direct supervision of Drs. These animals have been vaccinated as calves with BoviShield Gold 5 (IBR, PI3, BVD, and BRSV), One Shot Pasteurella, and Ultrabac 7 Somnus (Haemophilus and Clostridials) and they have been boosted. Furthermore, upon passing a satisfactory breeding soundness examination before the sale the bulls received a vaccination of PregGuard 10 and a FusoGuard vaccination (footrot vaccination). Any questions on the vaccination of the bulls and general health questions can be directed to Doctors at Twin Lakes Animal Clinic at (605)-256-0123.

Dear Friends and Cattleman,

We would like to invite you to our first annual Ford Farms / Holt Bros. "Hybrids For Profit" Bull Sale along with guest consignor Beare Cattle Farms. We feel as a group over the years we have put a lot of hard work and dedication in our herds from extensive AI to embryo transplant.

I would like to take time and thank three gentlemen that have been important role models in my life, Roger Deiter, John Sullivan and Jerry Adamson. From these great cattleman I have learned that with hard work, dedication and setting goals that anything is possible. Also that it is ok to think outside the box!!

What a wonderful time to be involved in the agriculture industry. With prices soaring and playing in uncharted waters it seems as the sky is the limit. We feel that it is a great time to be involved in Simmental and Chi genetics. We believe that these breeds can bring a lot to the table from a seedstock stand point to the commercial side of things. I hope you enjoy going through our sale offering and if you have any questions please feel free to contact us at anytime. We look forward to seeing you April 26th at Sioux Falls Regional Livestock Market.

Thank You,

Chris Ford, Ford Farms

As most of you are aware, Justin and Chris both devoted several years of service to our program. We consequently feel a connection to both of these guys and wish them all the success they deserve as they step into the Seedstock arena. While at our place they got a steady dose of what it takes, on a day to day basis, to make a Seedstock operation function on the production side of the equation. They have now begun the journey of tackling the business and people side of the equation. The Seedstock Business is fiercely competitive and if anyone deserves an opportunity to earn your business Justin and Chris fit the bill. These guys both "know cattle" and will be committed to raising the "right kind". Securing Alan Sears in an advisory role strengthens their odds of success as he will serve as a steadying rudder as they begin navigating the waters of this business. One day in my life that I will "never" forget was that first bull sale. It's a gut wrenching experience that everyone should have to endure. We learned that it takes about a decade to earn respect in this business, if you don't make too many mistakes along the way. I encourage you to allow these guys to begin that process by participating with them in their first Bull Sale.

Respectfully,
Roger Deiter

This is a little different twist here with some older genetics. The old Power Drive bull mated to a 600U X X339U cow. X394s pedigree has stood the test of time in the Simmental breed. X394 and his liter mate X395 are packed with performance.
