Welcome,

The entire A.L.E. Ranch family would like to welcome you to our first production sale.

After 20+ years running a large herd of commercial cows and a small herd of Registered Limousin cattle, we decided to change direction in 2010. We sold off many years of hard work as the commercial cows we had bred and raised left the ranch. While it was hard to let them go, we have heard back from many of the people who purchased them and they are very pleased with both them and their Limousin cross calves. This makes us very proud.

Having bred our registered Limousin bulls to our commercial herd for so many years and seeing the consistency in the calves, and high prices they brought at the sale and off the ranch, we knew we were breeding them right for the commercial cattle men. If the bulls we bred worked on our multi breed herd (Charolais; Angus, red and black; Simmental; Herford; Brahaman; Braford; and Limousin) so evenly we had faith they would do as well or better on other ranchers cows. Many return and referral bull customers have proven us to have been correct.

Now we are focusing on just the registered Limousin cattle. While we have mainly purebreds we are also breeding a few Lim-Flex (Lim X Angus) as well.

With this change from cow calf to seedstock producer ... we have purchased some animals we feel will help to improve and expand our current herd of Limousin cows and bulls. We look forward to having you attend our sale and if you have any questions, give us a call or drop us an email, we would love to show you our animals and talk cattle with you!

Thanks for considering putting our cattle in your program,

Andy, Lydia, Susie, Cody & Brandon

Don't forget the JR DISCOUNT
\$100 off animal purchased by/for
Junior Limousin member to be
registered in their name!

IGENITY ALE Limousin Ranch Results

A quick review comparing the top scores of A.L.E. Ranch cattle to all of the Limousin, and to all cattle in the IGENITY database. In this analysis, we chose a lower score as the preferred score for RFI, YG, and Fat, and on the other traits a higher score was preferred. Following are some highlights:

| TRAIT | SCORE | RANKING |
|-----------------------|-------|---|
| RFI | 4 | Top 14% of all cattle in the IGENITY database |
| ADG | 7 | Top 13% of all cattle |
| Tenderness | 7 | Top 14% of all Limousin and top 31% of all cattle |
| Marbling% Choice | 7 | Top 21% of Limousin and top 35% of all cattle |
| | 8 | Top 3% of Limousin and top 10% of all cattle |
| YG | 4 | Top 11% of all cattle |
| Fat | 3 | Top 3% of all cattle |
| | 4 | Top 20% of all cattle |
| REA | 7 | Top 10% of Limousin and top 5% of all cattle |
| Heifer Pregnancy | 7 | Top 14% of Limousin and top 19% of all cattle |
| Stayability | 8 | Top 19% of Limousin and top 15% of all cattle |
| | 9 | Top 4% of Limousin and top 2% of all cattle |
| Maternal Calving Ease | 7 | Top 12% of Limousin and top 16% of all cattle |
| | 8 | Top 2% of Limousin and top 5% of all cattle |
| Docility | 8 | Top 13% of Limousin and top 7% of all cattle |
| | 9 | Top 2% of Limousin and top 1% of all cattle |

LIMOUSIN Means Profit...

Whether you are a producer or a feeder, whether you sell calves or retain ownership, wherever you are, whatever your cowherd, whatever your market; Limousin and Lim-Flex genetics can enhance your profit from the pasture to the rail.

In the Pasture...

- Research has shown that Limousin cows wean a higher percent calf crop per cow exposed.
- Limousin cows are efficient producers on both low and high intake diets, making them fit in various environments
- The average Limousin cow culled for age is over 12 years old, adding 5 to 6 years of production past breakeven
- Docility EPD values have doubled in the past ten years
- Strauss Veal© offers a premium market for weaning age, natural, Limousin/Lim-Flex calves

"Some of these old cows we're running are 93 to 95 months. Those cows are 15 to 17 years of age. They calve well, wean heavy, and keep breeding back. They've paid for themselves a long time ago."

~ Casey Deuter, Deuter Ranches, Ree Heights, SD

Current rank of four major Continental Breeds, based off of MARC trial results.

| Breed | Feed Efficiency | | Repro/Maternal 1 st Calf Heifers | Repro/Maternal 3-6 Year Old Cows | |
|-----------------|-----------------|--------------------------|--|-------------------------------------|----------------------|
| | Time 187 d | Fat Thickness 0.43 in | Weaned % | Born Alive % | Weaned % |
| Simmental | 2 | 2 | 2 | 2 | 2 |
| Gelbvieh | 3 | 3 | 4 | 2 | 3 |
| Limousin | 1 | 1 | 1 | 1¹ | 1¹ |
| Charolais | 4 | 4 | 1 | 2 | 3 |

*Ranking determined from results published in the 2007 Germ Plasm Evaluation Report, ARS-USDA Meat Animal Research Center, Clay Center Nebraska.

¹Denotes ranking amongst all breeds included in study (Hereford, Angus, Red Angus, Simmental, Gelbvieh, Limousin, Charolais)

In the Feedlot...

- Limousin remains atop the Continental breeds for feed efficiency
- Limousin cattle maintain high feed efficiency at higher finishes and deeper in the feeding cycle
- Marketing opportunity with Laura's Lean Beef for high percentage or full blood Limousin cattle

On the Rail...

- Limousin can eliminate Yield Grade 4 and 5 cattle and increase percent Yield Grade 2 in one generation
- Limousin cattle excel in percent retail product, yield grade and ribeye area
- In tasting panels, Limousin beef ranks high for tenderness, juiciness and flavor
