This is opportunity time. Cool Whip, the dam of the popular Point Taken and Stands Alone, has finally given us females. We are offering two of the three for sale. All of the heifers go into the ring at one time; buyers will make their choice on two of them and we will take the third one back home with us to put back in our herd. That is how much confidence we have in all of these females. If like begets like all three are just like their mother. They have the freedom of movement like an angel. The power in their hip and their depth of body is identical to mom as well. There is broodiness and femininity and smoothness of shoulder, the way a female should be made. You make your choices and pick your favorites and I will guarantee you all three of us will be winners.

The real Minnie Pearl has left a lasting impression on many for decades. That is why 8135 was named after her. She has made an impression on everyone that has seen her. People ask - what is 8135? Probably the best way to describe her is that she is a total package. Elegance and grace of a show heifer and the pedigree to make a donor cow. She has already been in the show arena. Her maternal half sister sold in our sale last year to Mark and Pam Johnson and family and was named Fourth Overall at the Iowa State Fair FFA breeding show. She was just that cows first calf. Predictability in the makings here.

Really cannot tell you where we would change this female. We have liked her from the get go. Very angular female with lots of body and freedom of movement. This is the first heifer this cow has had and it is a hard one to let go of. Show careers and cow herds are built around ones like her.

This heifer has been another one of our favorites in the pasture this summer. Long fronted and has the body and muscle to go with her. She was shown at the Nebraska State Fair Simmental Show and won her class. Can be shown as a foundation Simmental or Chi. Her mother has been one of the highest revenue producing females we have. This one could keep you in the purple and then make you the dollars from the pasture.

This one would be one of our top picks to keep and not to sell. As a show heifer you have to admire her extra body, bone structure and fluid movement and femininity. As a cow she would be one to build a herd around. Her mother has been an incredible producer. This is her mother's third calf. The first was a bull calf we sold for \$6,000 in our bull sale and last year her half sister topped our sale at \$12,000. Happy may be the best one yet. A real donor cow here.
