I have picked up at the turquoise circuit finals twice and the NLBRA finals 5 times. We also run a few cows of our own here in Alamosa CO. In-between that we day work for a couple different ranches around home. Our horses experience many different environments and situations throughout the year, from the bright lights of the rodeo arena, to brandings, shipping's, and team ropings they get to see and do it all.

There hasn't been a time in either of their lives that they haven't owned horses. They both come from a long line of rodeo and ranching families. Orrin is a PRCA pickup man and team roper. Shelby spends most of her time finishing horses at home while also competing in the barrels, breakaway, and team roping events. The Honeycutts run cattle and therefore, their horses are used in and out of the arena consistently. Their horses are used in the mountains to check cows, move cows at home, sort cattle, and to brand. Most of their horses also double as pickup horses. These horses have to be able to sort horses and bulls, rope cattle, and keep their mind while picking up cowboys in the arena. Needless to say they have to be broke.

KJ Kasun | Campwood Cattle Company
campwoodco@gmail.com | kjkccc@yahoo.com

Campwood Cattle Co consists of four different ranches in Arizona comprising 220,000 acres and leased grass in New Mexico and Colorado. We run mother cows, stocker calves and feed cattle as well. The ranch owners are KJ Kasun and Swayze and Kathy McCraine. The McCraines have excelled in the cutting horse business and started the horse program that Campwood now has today. KJ Kasun began in the rodeo arena then quickly made his way to the cutting horses. He is a multiple aged event champion and finalist at all the major NCHA shows with earnings in the hundreds of thousands. Since retiring from the cutting horse world, he has spent his time roping with his family and tending to the ranches. Currently the Kasuns rodeo through out the year attending PRCA rodeos as a steer roper and Jr rodeos for all the kids. Campwood Cattle Co believes in the ranch horse. We believe in a horse that can do everything from sort a cow, to rope and drag calves all the while making a 20 mile circle to gather them is the most valuable animal on the ranch. We raise horses to handle this rough rocky country that we ranch in and then we show these horses the rodeo arena and the ranch horse shows. These horses prove themselves on the ranches first then make the easy transition to the rodeo or show pen. We do this with bloodlines like Dual pep, Streak of Fling, CD Olena, Sadies Frosty Drift, Gallo de Cielo and so on. These bloodlines make up our sire and broodmare battery. As a AQHA Ranching Heritage Breeder, we are proud of the horses we raise, use and offer to the public.

Rick & Sarah Kieckhefer | K4 Ranch | k4cowgirl@icloud.com

The K4 Ranch first began raising Quarter horses in the 1940's, registering the first ones in 1943 just three years after the formation of the American Quarter Horse Association. K4 Ranch has consecutively registered horses for over 70 years with the AQHA. Early on, the ranch was producing horses that were winning championships at racetracks and in show rings all over the west, in addition to raising good using horses. In 1963 the K4 ranch purchased the famous stallion Driftwood Ike. He stood for 17 years at the ranch headquarters located north of Prescott and strongly influenced the breeding program. His colts were sought after by many rodeo cowboys throughout the years because of their agility and grittiness in and out of the arena. Today several of the broodmares still carry on those bloodlines while they are crossed on Cee Booger Red bloodlines as well as Popular Resort Figure also. K4 horses have been some of the most successful arena horses in the country, and today the ranch continues to strive to produce top all around ranch horses, rope horses and barrel horses.

We have been in the business of training and selling all around safe, quiet, horses for the family of different breeds since 2000. This is our families full time passion and all of the children participate in the riding when a horse is fit in mind to take on the responsibility of a child on its back. We introduce all of our horses to so many different situations to ensure that when we place a horse into its' permanent home we feel confident in knowing that we made the right match. Each horse is evaluated to determine which trainer will work with them and then we not only ride them on our farm, we trailer them to different locations so that we can know and trust how they will be when placed into a new environment. We pride ourselves in not having a "quick" turn around on our horses as most of them are staying in our program for at least a year or more. We back our sales with a guarantee and will gladly work things out with people that are not satisfied with their purchase. We look forward to years to come to be able to provide others with well rounded, well trained horses that can be used to fit into any situation.

He has a very sweet and collected canter, flying leads, half passes, pivots and responds well to seat and leg cues. All the training is there!! I consider him quiet and safe for all levels of riders. He is one that the whole family has rode. From Dad, the teenagers (who did most of the training) Cheryl (eleven-year-old) trail riding him, down to little Mark (four-year-old) riding him in the arena.

Laredo loves people and is quiet in the barn. He always meets you at the gate. He is currently on shoes and stands great for the farrier, also to clip and bathe. He was vaccinated with the 5way in February 2019, and is up to date on deworming. Laredo comes clean and sound with no health issues or bad habits. If you are looking for that loyal and faithful forever partner be sure to stop by and visit Laredo. He will make your dreams come true!!

Maggie is a finished ranch, heel, breakaway, and pickup horse. She rides inside and out the same. She has lots of speed and stop. She is an excellent ranch horse, has roped bulls, been packed on, sorted horses, sorted cattle, and has been branded on. This little mare can go all day. Don't be moved by her size. She can do it all. We have had her, her whole life and she has never been anything but sound and solid. She is always ready to go. No buck. She stands, loads, and bathes without a problem. She can be ridden with or without a tie down or with only a war bridle. She opens and closes gates in the arena and in the pasture. Her size doesn't limit her. She may be little but she doesn't know it and has more heart than most horses. She is spunky and sassy and doesn't take well to getting pushed around, but pushes right back. She neck reigns and works off leg pressure. She really is a gem.

A more solid horse for anyone would be hard to find. Kid gentle but enough horsepower for the professional rancher. Western also excels in the arena. He is a rock solid rope horse on both sides of the steer. He has a ton of run on the head side and handles cattle very well. On the heel side, he shows how cowy he is with tons of rate and a big stop. It's hard to go wrong with Western. Cowboy is that horse we all dream of. Young with the mind and attitude of an eight or ten-year-old! Very correct in confirmation. He has quarter draft in him, just enough to make him stout but still athletic. He will lope a circle, take his leads, side pass, and is very soft in the face. Cowboy is one that can go in any direction: pickup horse, ranch horse and definitely an A-1 trail horse. He's seen plenty of trails and been in rough country. He does not get shook up or excited and takes it all in stride. We also have roped and ponied horses off him. Kids ages from six to 11 have been riding Cowboy, as well as the rest of us. Here's one for the whole family! There is no hidden gimmicks or tricks. He's safe, solid, and 100% sound.

"King" is a lovely gelding with a truly gentle nature. He drives beautifully and really rides around nice. Whether in the arena, the mountains, or a movie set he willingly does whatever asked of him. King has been on movie sets since he was a two-year-old. His movie experience and general training have exposed him to more than most horses see in an entire lifetime. Cross a river? No problem. Navigate a busy street? Ok. Ride bareback? Absolutely. We've even roped the sled and pushed cattle on him. King is very easy to drive, soft mouthed with a rock solid whoa. To ride, he's smooth as can be. He bridles up and collects nicely, moves off your leg and neck reins. He rides as quiet and content alone in the mountains as he does in a group.

If you like em big, and if you like pretty, be sure to come see Mr. Poco!!

He comes to you by Triple R Stables. Poco has been with us for almost two years, so he has been through our training program from A to Z. This includes extensive hours in the arena. He holds his collection well, responds to leg cues, and does flying lead changes. You can leave the arena behind and go on a very quiet and relaxing trail ride with him as well. Our sons, Kevin and Nathan have also ranch and team roped on him. Mr. Poco is very solid and handles a blow from the horn very well.

Listen to this!! He also rides English. One day our daughter (eleven-years-old) and her friends put him in English and started him in low jumps. He's amazing and will always give you his best! He's that laid back kinda fellow that would do the low key performances and then go be real competitive in speed events. No matter what discipline you put him in, you won't be embarrassed to be riding him. He just will present himself well! He is up to date on vaccinations, had the 5-way in February 2019, and is on a regular deworming program. He stands well for the farrier, to bathe, to clip and etc. He is clean, sound and only four-years-old.

He is twelve-years-old, registered and stands 14.3 hands tall. He is well build and will carry any size or level rider and be easy to get on at the same time.

Mr. Nightengale has been on many trail rides both in the high mountains and in the foot hills around the ranch. He spent all summer on top of the Big Horn Mountains being used on a grazing permit moving cows and is confident on the trail. He has also been used for hunting and has been packed as well as led the pack string. He is hobble and picket broke as well.

He got a nice handle on him and travels out on a loose rein. He is soft in the mouth and easy to ride. He will lope circles in the arena and side passes nicely. If you are looking for a nice, drama free horse that the entire family can enjoy, we believe Mr. Nightengale is one for you to look at.

We here at Triple R Stables are excited to offer for sale 3R's Quatro. He is an eight-year-old, half Fresian, half Andalusian that is registered with the International Draft and Sport Horse Registry. This beautiful Warlander gelding is truly of a kind! He stands 16.1h and weighs in at 1,300 lbs. It is hard to know where to start on this beautiful, talented, gentle and versatile gelding. We have had Quatro in many phases of training including doing flying lead changes every several steps, half passes, pivots, to being very responsive to seat and leg cues. He has performed with the garrocha pole. This past November we used him for a dressage performance at Horseman's Mission. The grandstands and crowd did not phase him. He is definitely a real crowd pleaser! He is one of the few out there that can leave the arena behind and go rope a steer the next day. He will take the blow from the horn. Take him out through the brush, creeks and mud or an all day trail ride and he will please you in every way! He has the ability to do anything and everything he's asked and he will do it with excellence. Quatro has also had approximately 60 days in harness. So...the hard work is done!
