SALE ORDER & SUPPLEMENTAL INFORMATION ... Sale order is catalog order! Any additional information or corrections to the printed sale catalog will be available online at www.RedAngus365.com.

AIR TRANSPORTATION ... Denver International Airport

TERMS AND CONDITIONS ... Cattle will sell under the standard terms and conditions of the Red Angus Association. All consignors in the RedAngus365 sale sell their lots 100% fully guaranteed. Any announcements from the sale podium will take precedence over the printed sale catalog.

EMBRYO GUARANTEE ... All embryo lots will have statements regarding each with their descriptions as to how they are selling.

DESCRIPTIONS AND FOOTNOTES ... Each consignor wrote the descriptions that pertained to their lot or lots or they were written by the staff at RedAngus365. They do not take any responsibility, in regards, to the guarantee of what was written. Any adjustments or corrections will be made at the time of the sale.

REGISTRATIONS, TRANSFERS AND EMBRYO TRANSFERS ... Within 60 days of the date of the sale, the cattle sold will be transferred (registrations) to the new owners through the offices of the Red Angus Association. The fee will be paid for by the seller.

PAYMENT ... All lots must be paid for immediately following the conclusion of the RedAngus365 Sale unless prior payment arrangements have been made with any representative of RedAngus365. Buyers are welcome to pay by credit card. If so, you will be charged a 3% fee on the total sum of your purchase.

DELIVERY ... Buyers are responsible for any shipping cost pertaining to embryo purchases and transportation of the live cattle. RedAngus365 buyers and sellers will work together to make this the easiest and most efficient process possible.

LIVESTOCK MORTALITY INSURANCE ... Any representative of the RedAngus365 team can assist any buyer with insurance regarding their purchases.

HEALTH PAPERS ... All live cattle sold will be accompanied with an appropriate health paper for immediate shipment if they are in Denver.

GENETIC CONDITIONS ... Log onto the Red Angus Breed Association and go to the animal search and results of the genetic testing will be found on any of the lots selling.

LIABILITY ... All persons attending the sale, do so at their own risk, legal or otherwise for their safety. The consignors, sale management, and sales staff assume no responsibility or liability for property loss or any accidents that may occur.

TRUCKING ... Randy Lathrop, 847.910.4673. Lathrop Trucking has an office located in the Livestock Center Auction Arena and can transport purchases from the Red Angus Renaissance Sale 2020 Edition.

Auction money and proceeds will be conducted under Randall O. Ratliff, dba R & R Marketing, P.O. Box 60097, Nashville, TN 37206. Bond # 7901027402 (U.S. Department of Agriculture, Grain Inspection, Packers and Stockyards Administration Packers and Stockyards Program.

Dear Red Angus enthusiasts,

On behalf of RedAngus365, we welcome you to the first ever Renaissance Sale! This inaugural sale represents only the very finest in Red Angus genetics from across the U.S. and Canada. Kiley and myself are pleased to be working closely with Scott Bohrson and his very able team members in bringing this sale to life.

This sale offering has been hand selected from only the most discriminating cattleman and we feel as you view the sale offering you will be as impressed as much as we are.

We have some of the finest herd sire prospects, proven donors and elite bred and open heifers. Also featured in this sale offering are some of the very best embryo packages and some of the breeds most sought after semen.

With the breed acceptance in the commercial and purebred segment of the business at the highest it can be, it is only fitting that we bring this sale to the Denver National Western Club during the national Red Angus Show.

Please feel free to contact any of the marketing team members or consignors, as any of us would be more than happy to talk all things good in Red Angus.

Best Regards,
Randall O. Ratliff, RedAngus365.com

There are people in this world born into the wrong generation. Paul Sisemore of P Bar S Ranch, Sand Springs, Oklahoma, is one such person. An Oklahoma cowboy through and through, Paul embodies the pioneering spirit of his home state, as well as the rugged determination of the American Cowboy.

His P Bar S Ranch, situated at the edge of the legendary Oklahoma Osage Country known for its strong grass, high quality livestock and iconic cowboys, has been a dominant force in the seedstock industry for the better part of two decades. Originally purchased in the fall of 2015 to make Red Lim-Flex seedstock, the P Bar S Red Angus herd has quickly blossomed into a leading supplier of purebred Red Angus seedstock for both fellow registered producers as well as astute commercial cattlemen. With two production sales a year, plus active participation in leading consignment sales across the country, P Bar S Ranch has earned a stellar reputation in Red Angus circles.

An avid golfer, Paul is a proud and loyal supporter of the Patriot Golf Club - a truly special and vibrant American club, where friends embrace with warmth, kindness and respect. A tribute to America's heroes, the spirit of patriotism, golf's greatest traditions and home to The Folds of Honor Foundation.

As such, it goes without saying Paul is also a staunch supporter of The Folds of Honor Foundation. The Folds of Honor is rallying a nation to ensure no military family is left behind in the fight to preserve American freedom. Through educational scholarships, they give back to the spouses and children of soldiers killed or disabled in service to our country. They provide healing, hope and an opportunity for dreams to be realized. Paul has been a longtime supporter of both The Patriot and the Folds of Honor Foundation. So much so, that anyone who has attended one of his unique-to-the-industry production sales, complete with replica western town, is familiar both with the Pledge of Allegiance that is said over a very meaningful American Flag given to him by a fighter pilot, followed by a presentation regarding The Folds of Honor Foundation.

When not ranching or enjoying a round of golf, for many years, Paul was a driving force behind Cust-O-Fab Specialty Services LLC manufacturing company. CUST-O-FAB was started in 1972 as a small metal fabrication shop with five employees that subcontracted work from the larger fabricators in the area. The shop soon began working directly for the refining, chemical and fertilizer industries.

The company focused on providing customers with unwavering quality while continually establishing strong customer partnerships—ideals he transitioned over into his seedstock enterprise. In a business where reputation is everything, Paul takes customer satisfaction to a whole new level.

With 22+ years in the seedstock cattle business, P Bar S Ranch (or as Paul likes to say “The Little Ranch with THE Big Genetics”), takes a great deal of pride in being a top source for predictable genetics. A quick visit with Paul and it is easy to see he truly enjoys developing superior performance seedstock for his long list of customers he proudly calls friends. And while it's been said, A man isn't born a cowboy...he becomes one, it's safe to say Paul Sisemore is as much a cowboy as he is a successful businessman and astute cattleman. Even if he came along 100 years too late.

The logo for P Bar S Ranch features the letters 'PBAR S' in a large, bold, orange, sans-serif font. Below this, the word 'RANCH' is written in a smaller, black, sans-serif font, centered within a horizontal orange bar.

Selling full possession and 25% semen interest!

Here is an opportunity that doesn't come along often and one that's certainly worthy of leading off the inaugural Red Angus Renaissance Sale 2020 Edition. The ability to invest in a proven herd sire that possess the rare combination of an impeccable phenotype with breed leading numerics. This lot is brought to us by the progressive VF Red Angus program hailing from Oregon, where Reform has made his influence felt. As evidence of his sweeping impact upon their program, it's worth noting the Reform calves in their 2019 annual production sale averaged north of \$7,500. In conjunction to that statement, co-owners, Six Mile Ranch and Weber Land & Cattle have had multiple Reform calves make their way to the top of their breeding programs respectively. Visually, Reform is a sound structured, stout featured, deep bodied individual that has taken the breed by storm since he topped the Weber sale with a total valuation north of \$100,000. Folks, don't let this opportunity pass you by. This is a rare chance to invest in a proven elite A.I sire - proudly offering full possession and 25% semen interest. Bid with confidence.

Selling Choice & Privilege

Folks, Lot 2A & 2B is your chance to be the judge! Here's your opportunity to take your pick of these two outstanding Reform daughters both of which will be campaigned at this very National Western Stock Show and come from the heart of the VF Red Angus breeding program. Both of these females represent a combination of exceptional phenotype, mainstream numerics and predictability. There's little question, both of these exceptionally high quality Reform daughters are destined for the donor pen. Note, selection is to be made at time of purchase.

Rust Varsity Blues 35G is the most interesting bull we have ever raised and one that we feel is the very best to ever carry the Rust prefix. We truly think he has the full potential to enhance the great Red Angus breed as he combines a pedigree that is fresh and stacked with incredible cow families and is phenotypically outstanding. His sire, Blue Collar was a \$76,000 high seller who has bred exceptional and his first calf crop took the U2 Dispersal by storm with multiple high selling progeny and a favourite sire group of majority of the breeders in attendance. His dam, WSF Ms Yankee 13T 12W was a \$76,000 purchase from Blairs.Ag that is one of the most influential donors in the breed and her production can rival with the most elite. She has produced many great ones including the \$60,000 Bingo along with more sons at \$34,000 - \$16,000 - \$14,000, - \$10,500 - \$10,000 and a daughter at \$16,000 and just recently a daughter topping our production sale at \$15,000. WSF Ms Yankee 13T 12W was also the grandam of the \$71,000 high seller from Duff a couple weeks back ... this donor truly doesn't miss. The genetics alone qualify Varsity Blues as one of the very elite up-and-coming herd sire prospects but when you combine that with his awesome phenotype, we feel he is special. He is proud fronted and extended through his front end with a smooth shoulder and bold ribbed with extra softness and natural muscle shape. He is a strong footed bull that is sound structures and already measured 36.5 cm at 9 months of age. Invest with confidence, we think that Varsity Blues will have a positive impact for years to come on the programs that acquire this true breeding piece.

Tested DDE, OSF, NHF, AMF, CAF.

The historic U2 Ranch Dispersal saw many influential donors sell throughout the world but as we studied the program closely throughout the entire year and Mabel 60A rose to the top as the specific donor we needed to acquire to boost our Red Angus donor division. Her embryos by Blue Collar were the high selling embryo package in the sale and she is a never miss cow and a herd sire producer who has raised the \$46,000 Genex sire Malbec 195D and the \$16,000 Anchor 1 sire, Merlot 266F. The Copenhagen daughters were features of the dispersal and consistently some of the nicest made, most balanced females on offer. 60A herself has a ton of style, presence, and overall quality combined with impeccable udder and foot structure. The mating to Blue Collar was an easy choice after seeing the progeny in the dispersal and at Rust Mountain View Ranch, they have been well received and he is a sire on the rise. Renown is a staple of the Canadian Sires lineup and has sired some of our favorite young cattle across multiple operations. With the strength of this cow family and the results from these sires, we have a ton of confidence in these matings.

Embryos are stored at Davis Rairdan International of Alberta, Canada.

Guaranteed 2 - 90 Day Pregnancies if implanted by a certified technician. Canadian Donors will cover export/ shipping costs to Billings, MT.

DAM: Red U2 Anexa 439A, dam of Blue Collar

Red Varsity Blues, son of Red U2 Blue Collar 295E.

Semen is qualified for U.S. and Canada

Opportunity abounds. Here's your chance to get ahead of the game and purchase semen on an exciting, royally bred, proven sire. Point blank, U2 Blue Collar 295E has been admired by all who have seen him. Yet his most impressive achievements lie within his calf crops. With several progeny on file featured in select programs, there is no guesswork with this sire. His progeny are deep sided, easy doing, production-oriented cattle built for today's mainstream market. As evidence of that statement, just this past fall at the U2 dispersion several Blue Collar calves averaged near \$15,000. Given his top 35% of the breed growth indicators, structural integrity, natural base width and true muscle shape there's little question why his progeny are in extreme demand. If you are looking for proven, high quality, growth genetics investing in this sire is an easy decision. Blue Collar semen is limited publicly so January 10th marks your lone opportunity to gain genetics by this breed standout in 2020.

Selling Full Possession & 100% Interest

It's not everyday you have the opportunity to purchase an elite donor cow, Damar Oh Baby W168, of substantive genetic merit that has truly stood the test of time and invest in embryos out of her by some of the breed's most popular A.I sires. The donor needs little introduction, as her well documented production record speaks for itself and mostly notably starts with she's the dam of the ever popular - Damar Trump C512! He's been a sire that has paved his way in the show ring with multiple championships and now siring champions both in the ring and the pasture! Found in these amazing matings is a combination of both proven genetics and fresh pedigree twists. This cow family feature lot projects to produce breed-leading standouts that would be an asset to any program.

Selling 50% embryo interest and no possession. Selling open and ready for immediate reproduction. This female will just plain hit you hard. DMAR Firefly 4Z C183 is so impressive from every angle—she's wide at the base of her skeleton, incredibly deep bodied, smooth in her lines and wickedly flexible on the move. This Firefly female was the top purchase from the Cloud 9 Dispersal sale. She is the epitome of a true powerhouse of a donor female. Her sire, Red Wrights 832S Iron Hide 4 is one of the most powerful young herd sires today. This female's dam is out of the Red FL Firefly 75M cow and from the storied family of 'Firefly' females. Selling 50% embryo interest and no possession. DAMAR Firefly 4Z C183 sells open and ready for immediate reproduction.

A.I. 12.05.19 to WEBR Maxed Out; P.E. 12.18.19 to sale to PBRs 794

We could say a million things about this one, but what stands out most to us is her extreme volume, doability, stayability as a donor female and most importantly the potential profitability she will bring to your program. PBRs Ruby Red 8214 is a daughter of the 2014 National Western Stock Show Champion bull, Six Mile Taurus 519A. Her dam is the elite Red Angus donor, SLGN Stony's Tempest 778T. PBRs Ruby Red 8214 is a full sister to the \$50,000 J6 Quick Draw bull that is now deceased. A female with this incredibly elite look and dark purple pedigree is worth having on your short list when sale day rolls around. She's the type that can create the great ones that'll rise to the top of their contemporaries as soon as they hit the ground.

This gal is as long as a freight train and she's got a presence that'll knock you clear over when you get your eyes on her. PBRS Miss Quick 8249 is a daughter of J6 Mr Quickdraw D328, the 2017 Fort Worth Stock Show Grand Champion Red Angus Bull. This female's dam is CRSL Miss Mandy 2676, one of the great donor females at P Bar S Ranch. Power is the name of the game with this female- she's got tremendous body, rib shape and such a square, level hip with extra bone and a huge foot. Maternal power and royal lineage is sure to carry this gal a long way when she goes into production.

All the little things sure do come together to make the eye-catching correctness and balance that define the beauty and grace of TW Nexella 914G. She is a daughter of Keifers Lulu Y55, one of Twin Willow Farms' top donor females, the 2013 Denver National Grand Champion female. This female's sire is Silveiras Mission Nexus, the powerful bull who continues to sire elite progeny that are superior bred and sheer products of excellence and this female is no exception. We love her amount of rib, superior lines and her overall presence. She's the kind to put you in the driver's seat.

Sellers retain the right to one flush at the buyer's convenience and sellers cost. Sellers retain possession until after the pen show on 1-12-2020

For the first time since the founding of our Red Angus division we are offering bred females from the heart of our program. This is a meat and potatoes mating that has built our program, the builder of maternal legends "Redemption" mated to our herd bull machine "323A." This mating has produced sale topping bulls for our program in 2017 and again last year in 2019. Their dam has quickly rose to the top of our donor pen and been the cornerstone to operation as a seven-year-old. These are incredible females that we expect to go on and make an immediate impact in the pasture and donor pen. Not only do these females carry all of the eye appeal in the world, they also read impeccable on paper with 183 HB, -5.0 BW, 57 WW, 95 YW.

FULL SIB: TLC Alaynah 329. full sib to Lot 16A & 16B

Hands down, these next three lots (14, 15 and 16) are true sale highlights worthy of taking notice of. All three lots are woven together by the ever popular lineage of TLC Alaynah 329. First, Lot 14 is the widely popular many time champion and 2019 American Royal Grand Champion bull, TLC E-Sig 777E, who comes to you in a predictable pedigreed package, is exceptionally well balanced, heavy structured, deep sided, wide topped and muscular. Secondly, Lot 15 - TLC Fight Night 1025F ET, if heavy weight calves at weaning are what trips your trigger, take a look at this big middled, rugged designed, high performance sire sale day - he's quite simply built for the mainstream! Lastly, Lot 16, choice of the right to flush to bull of your choosing on either of the full siblings to the ever popular TLC Alaynah 329 cow! Worthy of noting she has

been responsible for producing sale topping calves across the country of substantive valuations of \$60,000, \$40,000 and \$36,000. The bottom-line is, if you're looking for that combination bull that brings growth, structural integrity and pedigree to the table or elite genetics with the potential to bolster your breeding program there's little need to look further than these three

lots sale day.

Guaranteed 1- 90 Day Pregnancy if implanted by a certified technician

We saved one of our MOST EXCITING matings for this inaugural sale at the historic National Western Stock Show. Mann Red Box is cutting a wide swath with multiple high sellers at Duff's, Pembroke and here at Six Mile. Added phenotypic value with Bar E-L Meg 169Z on the bottom side of this mating. She is as close to perfection as you can make one with the production record to back it up. These embryos are sure to be elite!

Embryos stored at DRI- Alberta, Canada. Six Mile will cover export/ shipping costs to Billings, MT.

TWO PACKAGES OF FOUR EMBRYOS

This genetic consignment epitomizes the crossroads of where phenotypic quality, predictability and genetic diversity meet. These designer embryos offer you the opportunity to invest in some of the Red Angus breed's freshest and most industry relevant genetics. The imagination runs wild when you project the boundless possibilities of the future offspring of these breed standouts.

The donor dam, Red Blair's Priscilla 44Z, has become one of the most recognizable Red Angus donor females in North America. Her sire Kargo has made his mark producing top females and bulls for both Blairs.Ag Cattle and TimberCreek. Individually, Priscilla 44Z, possess a combination of structural soundness, base width and fleshing ability even the most astute cattlemen would appreciate. Her offspring to date have been exceptionally high performing and marketable, top many sales across North America! We feel these matings with Red Box and PTO speak for themselves and represents the progressive direction of acclaimed Blairs.AG breeding program. We invite you to appraise the unmatched genetic value on offer.

SIRE: MANN Red Box 55C, sire of Lot 18A embryos

This unique consignment epitomizes the crossroads of where phenotypic quality and genetic diversity meet. These two packages of three designer embryos offers you the opportunity to invest in a top-of-the-line donor and some of the breed's freshest and best genetics. The sire featured in the embryo portion of this lot is none other than the sound footed, heavy muscled, stout featured and widely popular AI sire, MANN Red Box 55C. He's made his mark in a big way siring scores of stout progeny that are leading the next generation of Red Angus. The donor female is SWC Robin 767E ET who has been admired by many for her flawless structural make up, front end design, body depth and high quality appearance as she's claimed numerous championship banners across the country. We feel these two packages speak themselves and represents the progressive direction of the Lind Family Farms program. Bid with confidence.

The embryos offered in this lot will have the ability to make strides in continuing the legacy of the Red Angus breed. TMAS Firestorm 1800 was one of the most dominant sires in the history of the breed itself. He's influenced so much of the breed's recognition for consistency and unrivaled excellence. Now is your chance to have his elite lineage and reputation added to your program. His dam was the phenomenal GT Cita 4060 female and from the Red Six Mile Sakic 832S bull. DAMAR 101J Blockana A121 is the tremendously elite female to come from the Cloud 9 Cattle Company dispersal. She is unrivaled in terms of a highly sought after and high caliber pedigree. She is a daughter of the great Red Fine Line Mulberry 26P and goes back to the legendary DFRA Blockana 101 donor female. This is your opportunity to invest in some of the best genetics not only in the breed still today, but in the entire industry.

SIRE: MANN Red Box 55C, sire of Lot 20 embryos

SIRE: PZC TMAS Firestorm 1800 ET, sire of Lot 21 embryos

MNS Pearle 3121 is no stranger to the spotlight, especially her progeny. Her most recently famed daughter is EDG Finley 3121, who obtained Champion Red Angus Female honors at the North American International Livestock Exposition open and junior show this year. She was also the grand female of the national junior show. This donor produces at one of the highest levels we've ever seen a female capable of. Her progeny are bringing a new face to the industry, taking the world by storm with their unmatched presence and design. Big-foot is the sire of the top young show heifers owned by Hartman Cattle Co. Rest assured with this MNS Pearle 3121 X Bigfoot mating. This unique combination is one truly worth your time- the profit potential and elite winning genetics these future embryos will have sure has us on our toes!

MATERNAL SIB: EDG Finley 3121, daughter of donor dam

Selling a right to flush to bull of buyer's choice. Buyer pays IVF flush expenditures, guarantee of six embryos and no maximum.

Folks, here is a true sale highlight to invest in proven elite genetics! "Pearle" has continually produced at the highest level! As evidence, her daughter EDG Finley 3121, was the talk of the town in Louisville for good reason as she sails to the top claiming the North American International Livestock Exposition Grand Champion Red Angus banner. That said, this is our inaugural step in offering this exclusive flush on this can't miss donor female. Visually, the "Pearle" progeny impress even the most discriminating stockmen with their impeccable foot size, bone work and overall structural integrity. This foundation female is a definite breed changer and January 10th is your opportunity invest in a female proven to produce on the highest level.

Buyer is guaranteed six embryos and they will be split between the buyer and owner 50/50 if the egg count exceeds 10. Flushing process and shipping is at buyer's expense and owner's convenience. Bull of choice for the buyer.

TWO PACKAGES OF SIX EMBRYOS

Cora 254Z has proven to be one of the most productive females on our ranch and possibly amongst some of the best in the entire breed. She is the dam of Red Cockburn Assassin 624D who topped our 2017 bull sale at \$77,500 to Brylor Ranch. A daughter was a \$15,000 heifer at the power and perfection sale at the agribition and another son Red Cockburn Cowboy Up 718E was a \$17,000 high seller in our 2018 bull sale to JK red angus in North Carolina. We are getting ready to calve out three ET daughters of 254Z this spring and they look amazing. The consistency and production of the Cora cow family runs deep as they have been responsible for many of our high sellers the past several years. Red Cockburn Ribeye 308U, a maternal brother to 254Z, was a \$30,000 seller in our bull sale and later topped the Soo Line dispersal at \$70,000. We have over 25 maternal siblings to 254Z in production in our cow herd.

Reds Seneca 731C was a \$35,000 high seller from Rhodes to Piepers. He stands on excellent feet and legs and is extremely bold ribbed and big hiped. His first sons have sold extremely well including one at \$80,000 and one at \$75,000.

Finished product is a new outcross sire for ABS. A combination of legendary angus sires Final Product and Hoover Dam. He combines an outstanding epd profile with an excellent phenotype. He has been in high demand selling every unit he has been able to produce so far.

Embryos are stored at Boviteq in Wisconsin.

The combination of quality and predictability is found in this intriguing genetic opportunity! This designer mating was strategically made to compliment one of the breed's most proven and predictable donors! Worthy of noting the resulting offspring of this very mating will be full siblings to both the 2018 North American International Livestock Exposition reserve grand champion female and the 2019 American Royal reserve grand champion female. The Damar Pride A274 cow needs little introduction anchoring the progressive HB Farms program. This donor is huge footed, stout featured, big bodied and has a proven track record. The A.I. sire on hand is none other than the former National Western Stock Grand Champion bull, Canadian Western Agribition Grand Champion bull, one of the most popular and genetically fresh the breed has to offer - Red Six Mile Signature 295B! Invest with confidence!

Folks, here is a truly unique opportunity to carry on the legacy of such highly esteemed bloodlines in the industry. These three IVF heifer embryos will be to the WEBR Night Train 324 X WR Ms Betty 9035 mating and whew- we cannot say enough about these two. WEBR Night Train 324 has sired high sellers for Weber and TC Reds, especially at the Ladies in Red Event. His progeny are full of capacious rib shape, growth and substance of bone. WR Ms Betty 9035 is one of the greatest females in the J6 Farms donor herd. She is known as a prolific show heifer and donor female that comes from a highly renowned and storied lineage. There are very few individuals that have this female's notoriety in their pedigree. A daughter of WEBR Dr. Phil that emphasizes maternal power, sheer phenotypic excellence and a high caliber pedigree. With these two individuals combined, we're confident in the depth of maternal power these embryos will exhibit. Embryos will be made shortly after the sale.

Prolific and consistent are the genetics in this embryos offering. HXC Allegiance 5502C has a breed leading growth behind him, marbling and such an attractive phenotype. He was one of the must-use young sire prospects in 2016 and from the Leachman Pledge bull. Individuals know Allegiance as the near-perfectly designed, heavily muscled and super sound go-to bull. J6 Advance E501 is a daughter of the foundation donor female, JKC Berry Advance 36W. Unsurpassed is how we like to describe the pedigree behind the daughters of JKC Berry Advance 36W. This genetic blend of second-to-none lineage is one that you'll want to invest in for the future of your program.

These embryo's are a genetic treasure! They encompass the two most influential cow families from the BAR-E-L for generations with the KASSIE's and MEG's! BAR-E-L Kassie 129B rose to the top, becoming the 2016 Denver Grand Champion Female. Since then, an even better donor with an impeccable udder, milk flow and production capability. With this mating to RED U2 Renown 193C, a tremendous breeding sire from the world recognized U2 Ranch program, expect exciting results from this genetic opportunity!
