19th *Annual* FEMALE SALE OCTOBER 3, 2020

at the ranch, Bruneau, Idaho

Welcome to our 19th Annual Female Sale.

On behalf of the Colyer family and the entire crew on the ranch, welcome to our 19th Annual Fall Female sale. This is the largest offering ever for this fall event. We believe it also has the highest quality females and matings to date from end to end. We are proud of the way our cattle have performed for other breeders across the country. Our program has stood the test of time by using cutting edge genetics. Numerous show heifer prospects sell and as many top donors and donor prospects as you will find anywhere in the land.

For the first time we are selling a number of Angus females. We have picked right off the top and feel you will be impressed with the quality.

This has been a very challenging year to say the least. It makes you realize though that being in agriculture and doing the things you love to do makes it a whole lot easier to deal with than most. We can associate with the best people in the world-cattle people!

Come early to inspect the offering. If you have any questions or comments, do not hesitate to contact us.

SALE TERMS & CONDITIONS

TERMS ... Terms of the sale are cash unless prior arrangements have been made. When making settlement, please leave specific instructions in writing for transfer and delivery.

SALE CONDITIONS ...

- Each animal will be sold to the highest bidder. The auctioneer will settle any disputes as to bids, and decisions on such matters will be final. Each animal will be at purchaser's risk as soon as sold and will be turned over to the purchaser as soon as practicable after settlement. All announcements made from the auction block on sale day by the owner or the auctioneer will take precedence over statements in the catalog.
- Colyer Herefords will precondition and wean heifers prior to shipment.
- Buyers have the option of leaving females at Colyer Herefords and having them exhibit the heifers at the national shows.
- Buyer must insure their purchase while being in the care of Colyer Herefords.
- The total cost of exhibiting the heifer at Reno will be \$1,500 and Denver or Fort Worth will be \$1,800 per show. This includes entries, show preparation and related show expenses.
- Due to increased feed costs, an additional \$8/day will be charged while the heifer is at the ranch, beginning November 1, 2020.
- Any banners, ribbons or hardware won will belong to the buyer.
- Buyer will take possession after the respective show and will be responsible for arranging transportation.
- Females that are sold as 1/2 interests, the costs will be split 50/50.
- Ownership choices – One-half interest vs. two retained flushes. We have found that some buyers like to own the entire animal and some like to only own one-half interest, therefore, we have come up with this concept so the buyer can choose which one they would like.
- 1/2 Interest Option: If one-half interest is chosen, the buyer will own one-half of the animal. The buyer will pay one-half of the show cost. It is the same as it has been every year on cattle where we have retained one-half interest. We will keep the female and breed her and when flushed, send half the eggs to the new owner. Colyer Herefords will

pay maintenance costs of the female after her show career. Buyer will pay for their portion of the flush cost when embryos are sent to them or we will alternate every other flush with the new owner, attempting to get equal amounts for each party. If the buyer has the ability to flush the female at their location, they can take possession of the animal and we will assume the opposite position and take one-half the embryos or alternate flushes.

- **Retain Two Flush Option:** If this option is chosen, the buyer will take possession of the heifer after her show career is complete. If shown, the buyer will pay full show expense. Colyer Herefords will retain the right to flush the female twice after she is in production, at the buyer's convenience, for a minimum of six No. 1 eggs.
- Colyer Herefords retains the right to one flush on all females in the auction.

GUARANTEE ... All cattle are guaranteed to be breeders. In case an adjustment is required, it will be made with a replacement animal of equal value to the animal in question or credit on the purchase of another animal.

GENETIC ABNORMALITIES ... Any cattle with a questionable parentage have been DNA tested and are IEF.

BREEDING INFORMATION ... Current breeding dates and calving dates are furnished in the catalog. Any changes will be announced sale day.

NOTE ... Everyone attending this sale does so at their own risk. Neither the owners or their employees assume liability, legal or otherwise, for any accidents which may occur.

DELIVERY ... Buyers are responsible for shipping expenses. We will help coordinate shipping to combine possible loads. Cattle will be kept for a reasonable length of time following the sale until delivery or pick up can be made.

ABSENTEE BIDS ... If anyone wishes to bid and cannot attend the sale, we would accept phone bids. Phone in bids with satisfaction guaranteed. We realize everyone's busy schedule and the expense of travel. Please feel free to contact Guy or Kyle for any of the sale representatives listed. The sale will be broadcast on LiveAuctions.tv for live Internet bidding.

We begin the offering of the 2020 edition fall female sale with a trio of females that have all been standouts since birth. As with any flush these sisters are not all exactly alike and we have wavered back and forth as to which is the best but they will all be very competitive. Up until last season embryo conception has been a little light on the donor dam after her great career as a show heifer and now she is producing great ones in volume. Lot 2 is polled and lot 3 and 4 are horned so it will be intriguing to get these split up at the large National shows. These are exactly what we were hoping for from this mating.

Here come the Bailee daughters and what a set we have here for you to appraise. We have been excited about these matings and it sure did not disappoint. Recently Bailee has been our most constant producer of show ring winners and some of the elite young females in the breed. Lots 6, 7 and 8 sired by Roll the Dice have that elite show female look. Lot 6 is polled while lots 7 and 8 are horned so it will be exciting to split these up. Lot 9 is a full sister to last years sale topper sired by Valor. She is cut from the same cloth as that female with the same great look and quality. If you are looking for a great cow prospect that has some added look and power focus on lot 10. She is one of our favorites and should be a money maker in the near future. We are excited to be able to offer you such diversity in these matings with Bailee.

Here is one of the most intriguing females we have ever offered. These kind are so hard to make because she bridges the gap between cattle that have phenotype and a genetic profile that cattlemen are in a constant search for. We would like to talk phenotype here initially because we feel that is first and foremost. This is a huge bodied broody looking female that will likely be the heaviest weaning female of our entire 2020 crop. She is a standout and has as much true breeding value as any female we have sold. Now study the numbers and imagine the possibilities when mated to the hottest sires of the future. You can't find holes in this one.

Innisfail WHR X651/723 4013 ET, sire of Lot 11.

We feel this is an extreme blend of genetics with precision and power. These females get the balance and look from the sire Blueprint and the donor dam 4297 provides the power. She is a massive built heavy constructed female that provides the horsepower. When mated to a sire that is so well made and correct this is the result. We feel this lot 15 female is so correct and well made that she will be hard to get around. The lot 16 female has a bit more of a broody cow look and has more pigment.

One of the youngest females in the offering but she blends together genetics with the same stamp of quality we are proud to offer. She is a curvy built one with lots of turn to her rib and hip. Her mother is the most powerful, heaviest structured sister to Eye Candy so it is no wonder where she gets her extra mass and shape.

HAPP BK Valor 37C ET, sire of Lot 20.

C Cotton Candy 3003, dam of Lot 20.

We wanted to offer this female because many of our buyers represent cattlemen who are in search of a great donor cow and we feel like this could be a herd building female. Study the great name brand cows in her pedigree. She starts at 1.2 birth EPD and is able to reach up above 100 on yearling. But more important is the look of a cow that you can see in this one.

TH Frontier 174E, sire of Lot 21.

C 10Y 440 Lady Dom 4067 ET, dam of Lot 21.

Trio of Bailee Fall aged females here that are all horned. These females may very well be the best in the entire offering. Lots 22 and 23 are full sisters to 8105. She was the high selling female in our 2018 sale at \$99,000 and went on to be named Champion Polled Female in Fort Worth 2020. Lot 22 is a massive made powerful female who has a lot of the same qualities as her sister. Lot 23 is perhaps the show heifer of the two with a long feminine neck and head and great look from the side. Look out for lot 24. Here is a Valor x Bailee with a sweet neck and lots of shape. She will be one to watch.

PICK OF FALL 2020 CALF CROP

Once again we will be offering the pick of our 2020 fall born calves in this auction. This was one of the big features in the 2018 and 2019 sale and it will be a great lot to consider again with even more calves to choose from. Lots of exciting matings will be involved here. Perhaps the most exciting will be the first Genesis calves will be hitting the ground in late September and this will be the first opportunity to view and purchase his offspring. We are expecting four out of Genesis and 6018 who is a full sister to Double Your Miles. Several Endure calves coming out of top donors. This will no doubt be a great lot to watch. The majority of these calves will be on the ground late August and will be close to view around sale time.

This female is so production oriented. She comes from a dam who has been a top producer for many years and by the way this one is built we feel she is destined to be a great cow. You will love her length of body and bold powerful hip. Her flawless EPD profile will give you a lot of mating flexibility.

BRED FEMALES ... All bred heifers carry a confirmed heifer calf pregnancy.

What a way to start the bred heifer portion of this sale. This mating has produced some of our most sought after individuals. Full sister was among our top sellers in the heifer calf division last year. Full brothers have been among sale toppers and are working in such noted herds as Bowling Ranch, Rogan Herefords, W4, Cardinal Creek and Waibel. Impeccable EPD profile. Freckle faced, deep bodied and you can already see she will have a great udder. A definite donor prospect.

C 105Y Lady Domino 4038, dam of Lots 38 & 39.

Don't ever pass up a chance to own a daughter of 4038 and this one is tremendous. Lots of body depth, long spined, huge hindquarter. A real broody look but still maintains a feminine look. Among the leaders in the breed for growth, maternal and SCHB. We were able to obtain her from Express after they purchased some embryos and with her carrying a heifer calf by Genesis we sure hate to part with her. Without question one of the top donor prospects we have offered with a great disposition.

If it wasn't for the fact that we are committed to sell all of these early bred heifers carrying heifer calves, this one would not leave this ranch. She has the pedigree, phenotype, performance and EPD profile to make an elite donor. Her sire topped our 2018 sale and resides at Copper Creek in Canada. Her dam was Bowling Ranches selection at \$54,000 for half interest last fall. A maternal sister by Black Hawk Down is a rising star in our donor program.

When we decided to add some Angus pairs to the offering and made the commitment to offer our best this one was the first to be sorted off for the auction. We flushed this female this spring for numerous reasons. First we went into the first calf heifers and picked the heifer with the best structure design and quality then we looked at the numbers and this one came to the top of the list. Sky is the limit for this kind of cattle. She offers so much versatility when you go to mate her because she covers the whole field.

Genesis has proven to be one of the most popular yearling bulls in the history of the breed. He is ideal in his phenotype combined with a tremendous EPD profile. His striking color pattern and being homozygous polled will add to the value of his offspring. A limited number of semen packages have sold to date and only 10 packages will be sold for the fall breeding season.

Owned with Express Ranches, Barber Ranch, King Herefords and Dry Creek Farms.

Belle Heir is proving to be one of the greatest breeding bulls we have ever used. He combines calving ease with extra growth and body length in his progeny. A limited number of semen packages have been sold thus far and we have heard great comments on his offspring from across the country. His ability to transmit extra pigment is another bonus. Dams average progeny record is IMF ratio of 116 and Ribeye ratio of 102. He is enrolled in the NRSP and we feel confident that his popularity will continue to grow.

Owned with Knox Brothers, San Angelo, TX
