

TRIPLE CROWN

THE GREAT STEAK CHALLENGE

LIVE ONLINE AUCTION

TRIPLE CROWN

THE GREAT STEAK CHALLENGE

IT'S ALL ABOUT THE MEAT

2020 has been a challenge for all of us. Our job to strategically influence our uncertain future in the beef industry is multi-faceted. We have all experienced long waits for Processing dates, restaurant closures, transportation issues, and many of our traditional markets are shut down.

In the midst of all this change, one thing is certain. The quality of US-produced Wagyu beef has improved significantly. Every year objective testing results prove Wagyu breeders are consistently raising the bar.

The lower scores at the challenge are still far above Prime. This is a testament to the quality of care and knowledge in US breeders programs.

In the US beef industry, prime graded steaks' criteria start around 8% intermuscular fat (IMF) to about 13% (Highly abundant.) The US Wagyu steaks entered started at 19% (IMF) and rose to a high of 55.4% (IMF).

Everyone in the breed should commend all Wagyu breeders who chose to place their steaks under intense scientific scrutiny to understand how their programs compare to their peers.

This year's behind the scenes team included Justin at Ironstone Impressions, Randy at Wagyu365, and many supporters. We had to think outside the box to bring the general public interested in top quality healthy beef to our table.

It is a goal of the Triple Crown Challenge to give the American consumer the opportunity for a farm to table experience, connecting them with local breeders relative to their area.

Personally, I am honored to have participated in being a part of this process to share the accumulated data that will enhance our understanding of this Magnificent breed.

Thank you for making this the most successful Triple Crown to all involved, specifically Dr. Dean Pringle and UGA.

Desi Cicale

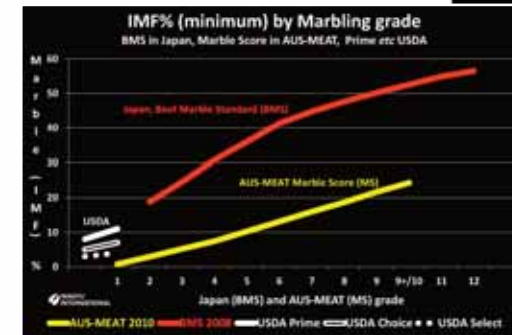

attention steak buyers ~

Once the purchase of any of the steaks are made, you will receive an invoice via email. After payment is made you may than email Abby@Wagyu365 and she can organize shipping of your steak purchases to you in the most efficient and most cost-effective way possible.

LIVE ONLINE AUCTION

11.17.2020 AT 7:00 P.M. E.S.T.

ONLINE AT  365
WAGYU365.COM

MEET THE WAGYU 365 TEAM

Dear Wagyu Enthusiasts,

It is with great pride and pleasure that Wagyu365 welcomes you to the 1st ever live online steak auction combined with some of the Breed's finest genetics. We have worked closely with Desi Cicale, the president of the Triple Crown Steak Challenge competition over the last few months. The main goal of this event is to bring attention to what is the very most important thing in the Wagyu Breed and that is its "MEAT". We realize "It is all about the meat" when it comes to realizing why Wagyu Beef is the hottest meat product in the world. Our congratulations and applause go out to Desi for all of her efforts and hard work for many years and bringing the Triple Crown Steak Challenge to life. She has had a very committed effort on her behalf to showcase all the things positive about the grading of the Wagyu steaks and what the consignors have to offer. We are in hopes, as you view this gorgeous catalog that you can join us for this live online sale where you will hear from our team on what this sale has to offer from some of the leading Wagyu feeders and purveyors of Wagyu beef and genetics.

If you have any questions, please let any of us involved in the sale know and we will be sure to get right in touch with you. We are honored to be involved in the marketing and branding of this event and this great breed of cattle.

Thanks in advance,
Randall O. Ratliff

~ MEAT SCIENTISTS ~

JUDGING CATEGORIES

CAMERA

POINT VALUE: 30

The Japanese Carcass camera was used to evaluate: Rib Eye Area, Rib Eye Shape, Marbling fineness, Marbling Coarseness and Intramuscular Fat (IMF) percentage. The Trim and fat color will also be evaluated.

WARNER BRATZLER SHEAR FORCE

POINT VALUE: 7.5

Meat tenderness is one of the highest-ranking quality characteristics for red meats. Meat scientists rely on a variety of methods to assess eating quality. These include tasting panels, detailed attribute panel evaluation, and visual judgment. While consumer studies provide very useful data, they do not provide objective research and do not meet the experimental requirements to validate a study. The Warner-Bratzler shear force technique has allowed meat scientists to significantly expand the scope of research endeavors. It provides a greater enhanced degree of objectivity. The Warner-Bratzler Shear Force evaluation is the most common and widely used texture analysis method for Tenderness to date.

SENSORY PANEL (PROFESSIONAL TASTE PANEL)

POINT VALUE: 35

Each steak will be tested by a trained, non-biased, panel of experts in a controlled testing facility for flavor and intensity of flavor at the University of Georgia new state of the art taste

panel lab.

COMPLETE FATTY ACID PROFILE

POINT VALUE: 20

The Fatty Acid profile will reveal the content of the Monounsaturated Fatty Acid and Polyunsaturated Fatty Acid and the Omega 3 and 6. It further breaks down the fatty acids to show the saturated and Oleic Acid content. It also reveals the full content of Oleic Acids, which from a health standpoint can put your beef in the most beneficial category for health-conscious consumers.

LIPID EXTRACTION

POINT VALUE: 7.5

Our new addition to the Challenge is the measurement of Total Intramuscular Fat Content (IMF). The connection between IMF and the eating experience of beef are well proven and very positive. This measurement along with the fatty acid composition also allows us to estimate the total availability of Monounsaturated Fatty Acids (MUFAs), particularly Oleic acid, in the steak which have demonstrated health benefits for consumers.

TRIPLE CROWN
THE GREAT STEER CHALLENGE

~ FULLBLOOD WAGYU STEERS ~

36 month-old parent verified Fullblood Wagyu Steers representing the finest genetics in the breed!

~ LOT 18 ~

~ LOT 19 ~

~ LOT 20 ~

Triple Crown Steak Challenge and Wagyu 365 proudly present the Top Steers in the USA. Just in time for the holidays, the most spectacular steers have hit the market place.

Feddersen USA Wagyu has impressively ranked in all categories of the Triple Crown Steak Challenge with Marbling Scores ranging from 48.8 percent intramuscular fat (IMF) and above. Feddersen USA Wagyu also won the fineness of Marbling certificate having the steak with the highest percentage of small fine marbling. This is a highly desired trait for tenderness and flavor in beef. Feddersen USA Wagyu scored in the Top 5 with two steers, proving the steers raised on the farm are all similar and deserving of Championship status.

In addition Feddersen's amazing steers earned scientific validation in these areas.

1. Winner over all in the Sensory Taste Panel, The Number one best tasting steak in the competition
2. Winner over all in the Warner Bratzler Shear Force test to determine Tenderness.
Meat so tender you can cut it with a fork.
3. Winner Over All in the Complete Fatty Acid profile category making Feddersen Beef the healthiest beef tested in the competition.

The steers in this auction are all related and fed healthy grains. Now is your chance to bid on the best tasting, most tender, scientifically proven healthy beef ever auctioned. This beef is guaranteed to be of the highest quality Wagyu beef raised in the USA. We believe so much in the quality of this beef 365 will guarantee your steer to be high prime or Feddersen USA Wagyu will trade you a high prime graded carcass of similar weight.

These top steers are auctioned with various harvest dates throughout the Months of late November through December. Allow yourself to experience a level of indulgence few people are able to achieve. 365 is the only auction that guarantees High Prime beef, Now is your chance to taste the elevated experience of Champion Beef.

TRIPLE CROWN
THE GREAT STEAK CHALLENGE

N **DONATION** *N*

Lots A, B, C & D will be donated to the Southern Alliance Junior Association.

~ MEAT BOX ~

ZABUTON - BAVETTE - FLAT IRON

We love the Zabuton for its incredibly rich beefiness. It's actually a boneless short rib, sliced thin to shorten the grain with a beautiful balance of tooth and tenderness that makes it an extremely satisfying eat.

~ DONATION A, B, C & D ~

~ MEAT BOX ~

- 2 ZABUTON STEAKS FROM MISHIMA RESERVE, 2 RIBEYES AN 2 LBS. OF WAGYU HAMBURGER MEAT
- 2 ZABUTON WAGYU STEAKS, 2 RRIIBEYES, 2 LBS. OF MISHIMA RESERVE WAGYU HAMBURGER MEAT

Lots A, B, C & D will be donated to the Southern Alliance Junior Association.

~ DRAWING ~

One MEAT BOX will be given to two lucky subscribers on sale day!

~ MEAT BOX ~

- 2 ZABUTON STEAKS FROM MISHIMA RESERVE, 2 RIBEYES AN 2 LBS. OF WAGYU HAMBURGER MEAT
- 2 ZABUTON WAGYU STEAKS, 2 RRIIBEYES, 2 LBS. OF MISHIMA RESERVE WAGYU HAMBURGER MEAT

sale order & supplemental information ~

Sale order is catalog order! Any additional information or corrections to the sale catalog will be available online at www.wagyu365.com prior to the sale.

watch live & bid ~

Log onto Wagyu365.com to view the sale offering and sign up to bid.

general sale terms ~

TERMS AND CONDITIONS ... Cattle will sell under the standard terms and conditions. All consignors in the Triple Crown Great Steak Challenge Sale sell their lots 100% fully guaranteed. Any announcements from the sale podium will take precedence over the printed sale catalog.

EMBRYO GUARANTEE ... Any embryos sold as stated and are not guaranteed on conception. All embryo lots will have statements regarding each with their descriptions.

DESCRIPTIONS AND FOOTNOTES ... Each consignor wrote the descriptions that pertained to their lot or lots. Wagyu365 does not take any responsibility, in regards, to the guarantee of what was written. Any adjustments or corrections will be made at the time of the sale.

REGISTRATIONS, TRANSFERS AND EMBRYO TRANSFERS ... Within 60 days of the date of the sale, the cattle sold will be transferred (registrations) to the new owners through the offices of the American Wagyu Association. The fee is paid for by the seller.

PAYMENT ... All lots must be paid for immediately following the conclusion of the Triple Crown Great Steak Challenge Sale unless prior payment arrangements have been made with any representative of Wagyu365. Buyers are welcome to pay by credit card. If so, you will be charged a 3% fee on the total sum of your purchase.

DELIVERY ... Buyers are responsible for any shipping cost pertaining to embryo purchases and transportation of the live cattle. Wagyu365 buyers and sellers will work together to make this the easiest and most efficient process possible.

LIVESTOCK MORTALITY INSURANCE ... Any representative of the Wagyu365 team can assist any buyer with insurance regarding their purchases.

GENETIC CONDITIONS ... Log onto www.wagyu.org, go to the animal search and results of the genetic testing will be found on the lot selling.

Auction money and proceeds will be conducted under Randall O. Ratliff dba R & R Marketing, P.O. Box 60097, Nashville, TN 37206. Bond # 7901027402 (U.S. Department of Agriculture, Grain Inspection, Packers and Stockyards Administration Packers and Stockyards Program).

WORLD K'S MICHIFUKU

WORLD K'S TANITSURU

Mayura L0010, the sire of these embryos needs no introduction. He is the high selling fullblood son of the breed leading sire Mayura Itoshigenami JNR and himself possesses elite genomic EBVs in the top 1% of the breed. The maternal granddam of these embryos also sold for \$50,000 at auction! The dam of these embryos, CHR 795, is sired by TF151 Itozuru Doi, a legend of the breed in the US and Australia. Itozuru Doi is coveted for his ability to pass on a tremendous balance of carcass and growth traits. TF 151 semen is almost nonexistent anymore. The 795 cow is backed by the \$50,000 cow, WKS CHR Ms Tanitsuru 621A, who in turn is a maternal granddaughter of the original import female, Kanetani. The maternal line in this lot includes some incredible sires – TF 151, Michifuku, and Japanese legends Monjiro, Tanifuku Doi, and Tanishige. The extreme value in these embryos comes from a unique combination of rare genetics with superior performance!

Stored at Vytelle, 80383 US-395, Hermiston, OR 97838, (866) 689-3477.

WORLD K'S MICHIFUKU
BR MS KIKUHANA 8610
MONJIRO 11550
MICHIKO 655635
TF KIKUHANA
JVP MS FUKUKANE 05E

CONSIGNEE BY **LONE MOUNTAIN WAGYU**, GOLDEN, NM

LMR Ms Michifuku 0162X is a productive Group "D" cow, with 64% Tajima, 17% Itozakura, 5% Okayama and 3% Okayama bloodlines.

0162X's sire, WKS Michifuku, is a Wagyu Trait Leader ranking in the Top 1% for both Ribeye Area (EMA) EBV (+7.0) and for Marble Fineness EBV (+0.45) with accuracies of 96% and 98% in the current BREEDPLAN report.

LMR Ms Michifuku 0162X's dam, BR Ms Kikuhana 8610, is by TF Kikuhana and descends from the Chisahime maternal line. 8610 produced 10 calves for Lone Mountain before she passed away at 16 years of age.

LMR Ms Michifuku 0162X has produced six calves for Lone Mountain – one of whom, a 30-month-old steer by LMR Daisuke 2470Z, a Kitaguni Jr son, graded 42.29% IMF.

This is a son of the breed leading sire Mayura Itoshigenami JNR. Itoshigenami JNR semen is currently not available on the market and recently 6 straws sold in the 2020 Mayura Sale to high of \$68,000 per straw! Mayura Itoshigenami JNR carries elite high reliability EBVs (91%-98%) because of his superior carcass data based on genomic data as well as actual data collected on 842 carcasses. A Trait Leader of the breed and in the Top 1% for EMA EBV (+8.1), MS (+3.1) and MF (+0.47). In addition, he ranks in the Top 1% of all 4 Australian Wagyu Breed Indexes.

Through his dam Westholme J0147, he receives growth and carcass traits from the top Westholme lines of Yoshifuji 8 and Yamafuji. These are two high Shimane influenced (through Dai 7 Itozakura) Westholme foundation cows.

The combination of the growth of these Westholme lines with the carcass traits of Itoshigenami JNR produces the massive genomic figures for Tyddewi N4431 of +2.1 for Marble Score EBV (Top 1%); +0.40 (Top 2%) for Marble Fineness; and +6.0 for Eye Muscle Area (REA) (Top 2%).

In addition, N4431 is in the Top 1% for all Australian Wagyu Indexes: +\$265 Wagyu Breeder, +\$280 Self Replacing Index, +\$234 Fullblood Terminal and +\$218 F1 Terminal Indexes.

N4431 was born 17 September 2017. He is F11+ and is FREE from IARS and the other 4 Wagyu genetic defects. He is VA 7. Sire currently only registered with the Australian Wagyu Association.

with an average of 31.73%, following Yasufuku Jr and his own sons, LMR Koichi 1409Y and LMR Kitaguni 1441Y. And with 16 images studied as Dam Sire, Kitaguni Jr displays his staying power for IMF by ranking #1 (34.35%).

In terms of Marble Fineness, Kitaguni Jr ranks third as Dam Sire. WKS Kitaguni Jr, is a Trait Leader for 2 traits; Top 1% for Birth Weight EBV (-3.4) and Top 4% for Marble Score (+1.7). Kitaguni Jr has been a powerhouse for Lone Mountain, producing outstanding carcasses achieving the 50% IMF range.

Michifuku, on the maternal side of the pedigree, is another superb sire. WKS Michifuku was sired by Monjiro 11550, listed by Kenichi Ono as #7 on his list of the Top 15 most outstanding Wagyu of Japan.

Monjiro, sired by Yasumi Doi J10328, was born March 15, 1981 in Hyogo Prefecture and was the 11th calf by his dam, Harumi. Monjiro, originally named Harutoshi 2, was just a yearling when he won the Number 2 spot at the Zenkyo (All-Japan Wagyu Show) and was auctioned for \$160,000. Michifuku's dam, Michiko J655635, was sired by Tanishige 1526, grandsired by Yasutani Doi J472 and great-grand- sired by Yasumi Doi J10328.

This is a son of the breed leading sire Mayura Itoshigenami JNR. Itoshigenami JNR semen is currently not available on the market and recently six straws sold in the 2020 Mayura Sale to high of \$68,000 per straw! Mayura Itoshigenami JNR carries elite high reliability EBVs (91%-98%) because of his superior carcass data based on genomic data as well as actual data collected on 842 carcasses. A Trait Leader of the breed and in the Top 1% for EMA EBV (+8.1), MS (+3.1) and MF (+0.47). In addition, he ranks in the Top 1% of all 4 Australian Wagyu Breed Indexes.

Through his dam Westholme J0147, he receives growth and carcass traits from the top Westholme lines of Yoshifuji 8 and Yamafuji. These are two high Shimane influenced (through Dai 7 Itozakura) Westholme foundation cows.

KITAGUNI 7/8
WORLD K'S NAKAYUKI
WORLD K'S YASUFUKU JR
MISS BAR R 321H

CONSIGNED BY **LONE MOUNTAIN WAGYU**, GOLDEN, NM

8724F is a daughter of BR Ms Yasufuku 0645– and is a full sibling of LMR Ms Kitaguni 8168U, one of our most prolific and productive donors. 8168U sports a Marble Score EBV of +2.0 and Birthweight EBV of -4.9, both traits ranking in the Top 1% of the breed, according to the most recent BREEDPLAN report. She has already produced 43 calves - including two steers by TF148 graded 41% and 43% IMF.

8724F is also a full sibling to both LMR Koichi 1409Y and LMR Kitaguni 1441Y. 1441Y is the #1 Sire for Marbling (39.54%) and #2 Sire for Marble Fineness (33.75) in the 2019 LMCC Sire Performance Study. In the current BREEDPLAN report, 1441Y is Trait Leader and Top 1% for Birthweight EBV (-3.5); just outside the Top 5% for Marble Score EBV (+1.5).

LMR Ms Kitaguni 8724F was sired by WKS Kitaguni Jr, the #1 Dam Sire in the most recent LMCC Sire Performance Study (SPS) for Marbling (45 carcasses = average 35.08% IMF) and #6 Dam Sire for Marble Fineness (30.94). For many years, Kitaguni Jr was the leading sire in the early iterations of the SPS – but recently, he has been outshone by his sons, LMR Daisuke 2470Z and LMR Kitaguni 1441Y. Still, as a sire, Kitaguni Jr shows decent numbers as a sire, averaging 34.23% IMF on 94 carcasses. BREEDPLAN numbers have Kitaguni Jr as Trait Leader for two traits; Top 1% for Birth Weight EBV (-3.4) and Top 4% for Marble Score EBV (+1.7).

8724F is an example of the Kitaguni x Yasufuku breeding that has worked so well for Lone Mountain. WKS Kitaguni Jr and WKS Yasufuku Jr occupy two of the three top places on the 2019 LMCC Sire Performance Study (SPS) as Dam Sires for Marbling. Yasufuku is #3 (62 carcasses = average 34.23% IMF). In addition, Yasufuku Jr is the #1 Dam Sire for Marble Fineness (average 33.31).

LMR Kitaguni 8724F carries 57% Tajima, 13% Itozakura, 6% Shimane, 5% Okayama and 3% Kedaka bloodlines – and ranks in the Top 1% of the breed for Birthweight EBV (-2.8).

This is a son of the breed leading sire Mayura Itoshigenami JNR. Itoshigenami JNR semen is currently not available on the market and recently 6 straws sold in the 2020 Mayura Sale to high of \$68,000 per straw! LMR Ms Kitaguni 8168U is a brilliant donor sporting a Marble Score EBV of +2.0 and Birthweight EBV of -4.9, both traits ranking in the Top 1% of the breed, according to the most recent BREEDPLAN report. She has already produced 43 calves - and two steers by TF148 graded 41% and 43% IMF - in addition, a five-year-old cow by TF148 was butchered and graded 34% IMF. In another display of her value as a dam, a 29-month-old by LMR Toshiro 723T graded 35% IMF.

LMR Ms Kitaguni 8168U is sired by WKS Kitaguni Jr, who is a Trait Leader and for 2 traits: Top 1% for Birth Weight EBV (-3.4) and Top 6% for Marble Score (+1.7). In the 2017 LMCC Sire Performance Study, WKS Kitaguni Jr as a Sire ranks 4th for Marbling with an average of 31.73%, with 61 carcasses studied, following WKS Yasufuku Jr and his own son, LMR Koichi 1409Y. And with 16 images studied as a Dam Sire, Kitaguni Jr displays his staying power by ranking #1 for IMF (34.35%). In terms of Marble Fineness, Kitaguni Jr ranks fifth as Sire and third as Dam Sire.

The dam of 8168U is BR Ms Yasufuku 0645, one of the premier donor cows in the Lone Mountain herd - 19 years old, she is the dam of both LMR Kitaguni 1441Y (the #1 Sire for IMF) and LMR Koichi 1409Y. 0645 has produced 22 calves over her breeding life, including a son of Kitaguni Jr (8166U) who graded 50.2% IMF and scored VAB100 by the USDA Grading Inspector. The average of 0645's 11 harvested calves is 33.12% IMF, with six steers grading over 30% IMF.

BR Ms Yasufuku 0645 was sired by WKS Yasufuku Jr, the #1 Dam Sire for Marble Fineness (33.31) and the #3 Dam Sire (62 carcasses = average 34.23% IMF). WKS Yasufuku Jr is Trait Leader of the breed for four traits in EBVs: Top 1% for Birthweight EBV (-4.0), and in the Top 3% for Ribeye Area (EMA) EBV (+6.1); Rump Fat EBV (+2.9); and Marble Score EBV (+1.8).

This is a son of the breed leading sire Mayura Itoshigenami JNR. Itoshigenami JNR semen is currently not available on the market and recently 6 straws sold in the 2020 Mayura Sale to high of \$68,000 per straw! Mayura Itoshigenami JNR carries elite high reliability EBVs (91%-98%) because of his superior carcass data based on genomic data as well as actual data collected on 842 carcasses. A Trait Leader of the breed and in the Top 1% for EMA EBV (+8.1), MS (+3.1) and MF (+0.47). In addition, he ranks in the Top 1% of all four Australian Wagyu Breed Indexes.

Through his dam Westholme J0147, he receives growth and carcass traits from the top Westholme lines of Yoshifuji 8 and Yamafuji. These are two high Shimane influenced (through Dai 7 Itozakura) Westholme foundation cows.

The combination of the growth of these Westholme lines with the carcass traits of Itoshigenami JNR produces the massive genomic figures for Tyddewi N4431 of +2.1 for Marble Score EBV (Top 1%); +0.40 (Top 2%) for Marble Fineness; and +6.0 for Eye Muscle Area (REA) (Top 2%). In addition, N4431 is in the Top 1% for all Australian Wagyu Indexes: +\$265 Wagyu Breeder, +\$280 Self Replacing Index, +\$234 Fullblood Terminal and +\$218 F1 Terminal Indexes.

N4431 was born 17 September 2017. He is F11+ and is FREE from IARS and the other four Wagyu genetic defects. He is VA 7.

Sire currently only registered with the Australian Wagyu Association.

Low risk and high-performance probability are the two main keys to breeding success and profitability. These embryos are that kind of investment! The Okutani offering pairs the highly proven Suzutani son, Shigesigetani, with Maire, an outstanding daughter of TF148 Itoshigenami. Marie traces to Okutani via super sires Itoshigenami x Michifuku x Haruki II x Okutani. Maire is a full sister to Maverick, a bull who is making great carcasses. She is also a full sister to Elizabeth, FB13775, who's embryos sold for over \$10,000 per embryo at the 2019 Australia Elite Sale. These embryos are a high reliability investment in fantastic genetics.

99W, LAURA

CONSIGNED BY **TALLY WINDHAM WAGYU RANCH**, CLYDE, TX

Hirashigetayasu 001's maternal great-grandsire is the distinguished Tajiri-line Tayasudoi. His lineage shows strong propensity from growth and balance with a larger frame. He has all three of the Westholme original import bulls in his pedigree (Kedaka, Fujiyoshi, and Tajmia). He was sired by Dai 20 Hirashige J287, and his dam is Dai 5 Yuruhime. This is another sire preferred for producing breeding females. Females have very good maternal traits. Hirashigetayasu's daughters have good udders and milk well. Most of his calves are easy for cows to birth, even though they're a bit larger than the average Wagyu calves. This bull produces offspring with excellent growth and a balanced fame and temperament overall. Carcasses from his offspring consistently grade on the high end but the marbling has a tendency to be moderately coarse. He has tested SCD AA and a four Tenderness.

Laura, 99W, is one of the truly elite Shigeshigetani daughters as she descends from the highly proven, original import female Okutani. She traces directly to Okutani through breed greats Shigeshigetani, Michifuku, and Haruki II. Laura has tested SCD VA, Tenderness 4.

The mating with Hirashigetayasu 001 brings a touch of high genomic genetics to a highly proven pedigree. Expect superior next generation results and propel your breeding program to the next level of performance!

CONSIGNEE BY **LANDGRAF RANCH AT WALNUT CREEK**, RED ROCK, TX

The sire of this mating, L0010, is a son of Mayura Itoshigenami Jnr 0139. Mayura L0010 ranks in the Top 1% for Marble Score EBV and Ribeye Area EBV and in the Top 1% for all 3 Wagyu Indexes: Self-Replacing, Fullblood Terminal and F1 Terminal Index. In 2017, he sold for \$105,000! L0010's dam, Mayura H0159, reflects Itozurudoit TF151 and Kanadagene 100 bloodlines from the Aizakura maternal line. Mayura L0010 was sired by Mayura Itoshigenami Jnr, sometimes referred to as "King of Australian Wagyu Sires," who has been at the top of the Australian Published Sire Reports since 2015 with more than 75 carcasses imaged and measured - he has sired more than 900 Mayura calves at last count. In 2016, 10 straws of 0139 were sold for \$30,050 (\$3050 each); in 2019, one of his heifers sold for a record-setting \$280,000 and a son sold for \$185,000 in 2018. Mayura Itoshigenami Jnr semen just sold and averaged over \$55,000 per straw, a world record. Mayura Itoshigenami Jnr is a proven progeny sire, a son of Itoshigenami TF148 - and his dam features the genetics of Sanjirou and Suzutani and TF Dai 2 Kinntou 3, an Itomichi daughter from the Hikokura maternal line. L0010 semen is no longer being sold, so the value here is priceless. He is paired with 0707E - 74E ET, a daughter of Kitaguni Jr to add even more marbling power to the mix as well as much need growth. Kitaguni Jr is a Fujiyoshi and Shimane bull. When breeders cross this bull on Tajima heifers, they'll see calves with increased frame size and enhanced growth. And, they have marbled beef ranging from Prime + to Prime +++. 0707E - 74E ET's dam brings BR Itomich 0602 4632 to the mix to add even more value as he was at one time the 7th highest marbling bull in the National Wagyu Sire Summary. His maternal Grandsire is BR Kitateruyasudoit 9680 who ranked 10th in the 2013 National Wagyu Sire Summary for marbling. This bull is a classic mix of high marbling and growth genetics. Macquarie Prelude M0495 is ranked #3, #1 and #1 respectively for Self-replacing, Full-blood terminal and F1 indexes for commercially available semen. This bull ranks in the top 1% for Marble score and the three major indexes, as well as being in the top 25% for growth, fertility and weight indexes. Also within the top 40% for milk capacity. This combination is very rare for Wagyu bulls. He is the son of the famous Macquarie Wagyu Y408. Macquarie Prelude M0495 is free of all tested Wagyu genetic disorders. On the bottom side of these embryos we find the breeding of the well-known US herds Clear Creek Cattle Co and Triangle B Ranch. This dam has genetics of TF 147, JVP 068, LMR Yojimbo, JVP 400, and Michifuku in her five generation pedigree. The donor for this set of embryos has a pedigree to die for with many of the great marbling sires like Yasufuku Jr, Kitaterusyasudoj, Kitaguni Jr and Michifuku on the top side. On her dam side we have Itomichi 1/2, Takazakura, Itoshigenami and Mazda. For all the marbling sires she has great size and is the kind of cow you can walk up to and pet out in the pasture.

He is a son of Kousyun who in turn is sired by legendary Japanese sire Yasufuku J930, behind this is World K's Kage, JVP 068, and the import cow Kanetani. The donor dam is a daughter of TAI MR Tanimara BL141W, a Shigeshigetani son from the World K's Nakagishi maternal line. The maternal grandam of the embryos is a Hirashigetayasu daughter from Crescent Harbor Ranch breeding and the well-known Chisahime cow family.

SCD/Tend: AA/6 1 Yr ADG: 2.3

A fast growing, high marbling son from TF Terutani 40 with the dam sired by Bejiro. This young bull was entered into a University of Vermont Ultrasound study partnership, looking at the rate of marbling as a tool for bull selection within the Vermont Wagyu herd. He and five other bulls (all preselected for growth), were entered into this study that spanned 3 to 4 dates, centered around a year of age. He was the youngest bull in the study, and started with the highest IMF level, adjusted for age. It was not so much the level of IMF, but the acceleration in marbling was exceptional, significantly beyond the other 5 Full Blood VT Wagyu bulls. This high Tajima bull, 79%, has been collected at Hawk Eye and is currently working at the Vermont Wagyu farm. His semen is currently entered into a Mishima progeny carcass test in Montana, along with two other VT bulls, using Bar R 30T as a baseline.

Shipping is the responsibility of the buyer.

Semen held at Hawk Eye Breeders, Adel, IA 515-993-4711

FIVE UNITS OF SEMEN

L0010 is a son of Mayura Itoshigenami Jnr 0139. Mayura L0010 ranks in the Top 1% for Marble Score EBV and Ribeye Area EBV and in the Top 1% for all 3 Wagyu Indexes: Self-Replacing, Fullblood Terminal and F1 Terminal Index. In 2017, he sold for \$105,000! L0010's dam, Mayura H0159, reflects Itozurudoï TF151 and Kanadagene 100 bloodlines from the Aizakura maternal line. Mayura L0010 was sired by Mayura Itoshigenami Jnr, sometimes referred to as "King of Australian Wagyu Sires", who has been at the top of the Australian Published Sire Reports since 2015 with more than 75 carcasses imaged and measured—he has sired more than 900 Mayura calves at last count. In 2016, 10 straws of 0139 were sold for \$30,050 (\$3,050 each); in 2019, one of his heifers sold for a record-setting \$280,000 and a son sold for \$185,000 in 2018. Mayura Itoshigenami Jnr semen just sold and averaged over \$55,000 per straw, a world record. Mayura Itoshigenami Jnr is a proven progeny sire, a son of Itoshigenami TF148—and his dam features the genetics of Sanjirou and Suzutani and TF Dai 2 Kinntou 3, an Itomichi daughter from the Hikokura maternal line. L0010 semen is no longer being sold, so the value here is priceless.

LRX Taz 5U 0320F - 30F ET is a DNA verified homozygous polled purebred Wagyu bull with genetics from the Bar R Cattle Company. He is the genetic twin to the recently deceased BAR R ARIMURA, another highly desired homozygous bull. He is free of all test genetic defects. LRX 30F has an exceptional pedigree with his sire Bar R 52Y producing exceptional progeny results in Australia. 52Y sired bulls that have sold for \$80,000 as well as a female who just recently sold for over \$40,000. On the BreedSeek DNA test, his score confirmed his pure Wagyu genetics. Polled Wagyu will have a significant impact on the future of the Wagyu breed with proven genetics, with the added benefit of no horns. The advantages include: Genetic quality, Adaptability, Growth Rate, No Horns, No Cost of Horns, Polled calves, Registered Sires to name a few. Since Bar R 52Y, his sire, progeny have been coming through the Robbins Island Program in Australia, the profitability and consistency has increased immensely. 695 Bar R 52Y Progeny have now been processed through the Robbins Island Wagyu Program. And additionally Bar R 52Y progeny were processed in a trial in Queensland. The dams of these animals are all Hammond Farms original Heterozygous Polled females. The following shows Marbling, Carcass Weight, Eye Muscle Area, and Days on Feed. His dam, Bar R 5U was the high selling cow in the 2016 Bar R Wagyu production sale and has 29 progeny in the American Wagyu Association registry. 5U is a true foundation dam for the future of polled Wagyu!
