FALL FEMALE SALE

Welcome to our Fall Female Sale,

This has been a year full of changes, but some things remain the same, the importance of proven cow families in the production of great bucking bulls will never change. This offering of females represents the most sensational pedigrees we have ever offered. For 40 plus years, our focus on breeding bucking bulls has remained the same, we strive to produce bulls that have what it takes to become a World Champion. Therefore, we have rigidly culled our herd and developed a selective mating program to produce the very best. We know that each year when we select females for this sale, we are sharing the heart of our herd. You can buy with 100% confidence that these are the real deal.

We sell several females in our auctions every year and it is so exciting when we see how well they are working for our customers. The impact the Page genetics have made in the industry is very humbling for us, and our goal is to make each generation better. We look forward to seeing them work in your program.

These females sell bred to what we believe are our most elite herd sires and most exciting young bulls. We do not breed to a bull that isn't backed by proven cow families, we know that's what it takes, and we stick to it. The females that sell open are guaranteed as sound breeders.

D&H Cattle Company has a lot of moving parts that include farming, baling hay, working cows, starting young bulls, hauling bulls to events, record keeping, and feeding everything. It takes long hours and dedicated employees to make it all happen. We truly appreciate all our employees, friends, and family that help make our operation successful.

This sale offering is power packed, they are rich in proven genetics, and bred for success. Study your catalog, research the pedigrees, and feel free to contact us with any questions. We look forward to seeing you on sale day!

Thank You,
D&H Cattle
