It is once again a pleasure to invite you to the "Red Dirt Treasures" Sale. On behalf of Lazy Bar F and Double G Shorthorn we look forward to your attendance and will once again host a top notch event. We will be offering a top set of Bred Females, Cow/Calf Pairs, Show Heifer Prospects, Herd Bulls, Embryos and Semen.

The quality genetics in this sale are the very best and as always the hospitality will be outstanding as well. Plan on sharing in some great Shorthorn fellowship.

As always, please contact us if we can be of assistance.

Sincerely,

Jeff K. Aegerter

We've always thought Schrag's Revival cow to be one of the most impressive in the breed, a "Hall of Fame" caliber cow, you could say. Finding the RIGHT Revival has always been a focal point for what we want to build the future of our program around. The search ended before it could even get started when this set hit the red dirt. 113J will be at the top of the list for many. She is so powerfully built from the ground up, and very elegant in her design. We have high hopes and expectations of this elite Revival daughter. 115J a little greener, but smooth in her design and overall make up with added length from end to end. This one is bred to make an awesome cow and not just a show heifer. 116J color is not the first pick of most, but we can't get around how good she is. This is a nicely balanced easy feeding heifer.

These flushmates all bring something different to the table. It's hard to pick a favorite. Whether you are picking a flashy show heifer or future donor, you'll find it in these sisters. A maternal sister to the donor dam, HCAT Cumberland 12102 E ET, was reserve grand champion shorthorn at Ft Worth 2014. The grandma of the donor dam was the foundation for the Cumberland cow family in the WHR and Cates herds. Cumberland x Bloodstone matings have produced many many champions including National champion females and junior champion females.

Emily 192J is the result of what's been a signature mating here at Weeping Fox. We wouldn't continue flushing MAV Emily 734T to MAV Charisma if her daughters didn't continue to work in the showing, and just as important be profitable as mommas. I can't stress enough the value of these MAV Charisma daughters, case in point LCCC World Wide's mother. Were not just offering a stunning show prospect here but an investment in your genetic pool.

We twisted my brothers arm to put this cow in the sale. This long sided female has become the ideal, low input, brood cow. Her potential is evident in the heifer that sells from side, and I'm sure there are plenty more great ones in her future.

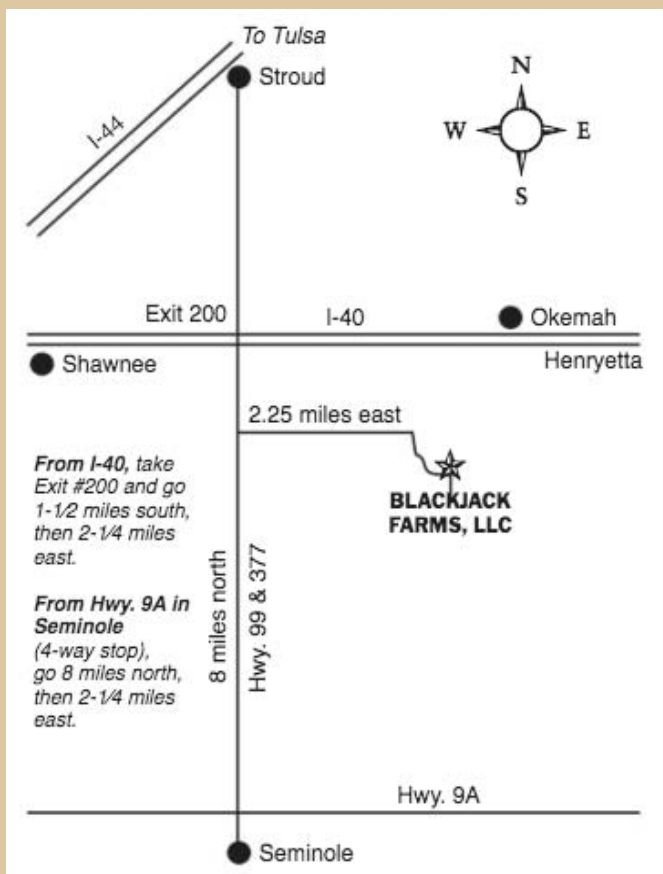

**LOT 22A** - 2G HG Cher 53J EM \*x4334353, Heifer, Polled, Roan, born 10.19.2021. Sired by Gilman's Empower 51E. Our youngest heifer in the sale and the greenest, rightly so. We first appreciate her overall length, she combines this with the right kind of shape and proportionality to lay down and have the good ones, like her impressive dam.

### TERMS

**GENETIC DEFECT DISCLAIMER:** All lots have been tested for the Standard Genetic Defects and are labeled as such. Updates will be available on sale day.

**TERMS:** All cattle in this sale sell under the sale terms as written by the American Shorthorn Association. Updates will be available on sale day.

**PAYMENT TERMS:** Terms of the sale are cash or check made payable to Aegerter Marketing Services, Inc., immediately following the sale and before the cattle are removed from the premises. Purchasers or their representatives must sign the bill of sale prior to leaving the sale.

**BILLED ACCOUNTS:** All billed accounts are due and expected within 10 days of the sale date. At 10 days, a two percent service charge will be added to the unpaid balance and an additional two percent will be added every 30 days thereafter.

**LIABILITY:** Each animal will be at the buyer's risk as soon as sold, but will be cared for by the seller of a reasonable amount of time. Neither the owner, employees, auctioneer, sale manager or other affiliated personnel can be responsible of any accidents, but they will make every effort to provide for the safety and comfort of those attending.

**BREEDING GUARANTEE:** We guarantee all livestock sold as sound breeders. However, if we feel that a heifer has been fed to an extreme level of obesity for the show ring, we hold the feeder responsible for any reproductive problems and no longer feel responsible to guarantee that individual animal. In the rare case that this should occur, the Red Dirt Treasures Group will still try and help you through two breeding seasons.

**EMBRYOS:** The Red Dirt Treasures group will guarantee one pregnancy on each package of embryos selling if implanted by a certified technician.

**FLUSH RIGHTS:** The Red Dirt Treasures consignors reserve the right to one flush of eight or more grade 1 or 2 embryos at our expense on all females selling. Flush to take place at the convenience of the buyer at a location of their choice.

**SEMEN RIGHTS:** Reserve the right to in-herd semen use for all bulls selling.

A daughter of one of the breeds most proven donors, Myrtle Bo 46P, it is no wonder she has been predictable for producing stylish, sound, show quality calves. Her first daughter is working in herd, and her second made the deep set of show heifer prospects offered in our inaugural sale. With her last three offspring being a trio of bulls, we'd think she's due up for another heifer come fall.

PE to Gilman's Empower 51E 12/01/2021 - 01/26/2022.

Another daughter of Demi Delight 2R58, so I'd say we're off to a good start, not to mention a flushmate to sale topper of the 2017 Springtime Revival. This cow's production speaks for itself, a daughter sold in last year's sale as a bred heifer, a daughter sells in this year's sale as a bred heifer, and it will surprise us if you don't see another bred heifer in next year's sale. Only because we're not fond of calving in the heat of a western Oklahoma summer, we withheld breeding for an early fall calf, all the better.

If your looking for a red-necked roan, here's your girl. Another female sired by Empower, which I predict to one day term "The Cowmaker". This heifer has great potential for herd production and is backed by a great cow family.

We were not even upset when this flush did not produce a single heifer. From day one, these bulls were plenty enough to get us excited. Had it not been for injury, a third flushmate would be selling alongside these two impressive individuals. Each bull is bold with great depth and a very attractive look to go along with it. What we've come to love from their donor dam, and is evident in each of these bulls, is predictability. We expect the same predictability in these bulls production, and think they will excel in making attractive, marketable cattle. If their color was any closer, they'd be hard to tell apart, so your pick is as good as ours. 56H does hold the edge on growth, but he also drew the much better recip. If we didn't have the need to inject different bloodlines, we'd be happy put either of these two herd sire prospects right to work in herd.

I'll start by saying, it feels good when a plan comes together. His dam is one of grandpas few cows, which I manage. I've bred her to have a show heifer year after year, and year after year she's shucked out bull after bull. I finally got smart and bred 39h's dam expecting our next great herd sire prospect, and along came Heavyweight. If you quickly study his EPD profile and pedigree, you probably draw a few conclusions on paper before you even see him: outcross, suitable for heifers, beef bull...and then you lay eyes on him and all these notions are confirmed. From head to foot, there's a lot to like about this strong built bull. I think he can be a very versatile herd sire that can produce both male and females for all facets of the industry.

Here is the power option. This bull is long, masculine, and rugged. If shorthorn influence for show stock production, steer or heifer, this could be one to tie too.

We're excited to once again highlight Legion progeny in our sale. Hi only prior calf to sell topped our sale in 2020. Since then, he was riddled with injuries, eventually leading to his decease. This bull calf represents his last naturally sired crop, and were more than happy with him. (We will continue to use Legion in our AI and ET operation, of course.) Juggernaut is an incredibly high powered bull. If you need to add mass and dimension without sacrificing look, this is your guy. Much younger than the bulls pictured before him, but still he stands out. I really regret not halter breaking this one, he's that good, and could stand a lot of competition in the ring.

Recip is a purebred Shorthorn that is easy keeping and great, docile mother, registration number 4271326.

Modoc Margie and her progeny have left their mark on the breed. Countless show winners have been produced from this lineage. This pregnancy certainly has the potential to follow in those footsteps.

Our Margie is extra long and sleek necked with a huge foot. Combine that with the dominate breed bull, SULL Traveler, and feel confident that you are buying a winner.

Recip is a Felecia ShorthornPlus cow that has done an outstanding job raising her first calf this fall, registration number AR4287646.

This will absolutely be the last opportunity to purchase these genetics. We think this will be an exciting breeding, potentially even better than the Red Sensation heifers offered in this sale. This donor dam is a maternal sister to a Reserve Fort Worth Champion and this lineage has produced many champions including National Champion females, Junior National Champion females and a bull known as "Sonny."

**OWNED BY LAZY BAR F SHORTHORNS**

Picture is a full sib to the embryos in this lot. She has been very competitive at all levels. She was Fifth Overall Bred and Owned heifer at Junior National in Abilene. Brave is a maternal heifer with tremendous power, capacity, and good at the ground. This heifer is the most popular heifer we have ever shown and is making a great cow (her first calf has been Reserve Grand in the two National shows we have taken him to) We have had three other heifers out of this mating that are all very complete and will compete at all levels. Dont miss out on this opportunity.
